WARNING: ALL batteries MUST be CHARGED INDIVIDUALLY and properly tested to ensure they are in good condition (no dead-dying cells or excessive sulfation) before using this 210AY battery connector to maintain them in multiples. Only healthy, fully desulfated batteries should ever be MAINTAINED in sets of 2 or more.

Note: 12 ft. (BatteryMINDER DCE12) and 25 ft. (BatteryMINDER DCE25) Extension Cables available.
